

## DOWN SHOP LEAD (DSL)

### DSL Cable – Power in Motion.

Our **DSL Cable** is engineered for high-performance power and control transmission in demanding industrial environments. Commonly used in crane systems, and hoists, the Down Shop Lead cable provides a continuous electrical connection along tracks or runways.

- ◆ Technical Aspect: A bus bar covered with insulating material and a protective shroud to prevent accidental contact.
- ◆ Mechanical Aspect: The shroud provides mechanical protection against physical damage and environmental factors. Improves durability and reliability in industrial installations.
- ◆ Current Carrying Capacity: Designed to carry high electrical currents efficiently with minimal power loss.
- ◆ Space Efficiency: Compact design allows for neat and organized electrical distribution in panel
- ◆ Installation Ease: Modular design simplifies mounting and maintenance.

## Some of Our Esteemed Clients

### Our Other Verticals:

- Cranes & Hoists
- Floor Handling Equipment
- Mobility Solutions
- Automation & Robotics
- IOT Services
- Annual Maintenance contract
- Crane Kits
- Renewables
