

STORAGE TANKS

K. K. Nag Pvt. Ltd has been pioneering various plastic processes in India since 1965 and has been KKrafting Polymer Possibilities using rotational moulding for the last 2 decades.

We possess a skilled team of experts and are equipped with a total manufacturing capacity of 350 MT per month. We have the capability to produce parts as small as 0.150 kilograms and as big as 210 kilograms, with diameters as large as 3.5 m. This allows us to cater to a diverse range of industries, including Agriculture, Automotive, Chemicals, Consumer Durables, Food and Beverages, and many more!

Why choose K. K. Nag Rotomould Industrial Storage Tanks?

- K. K. Nag Rotomould Industrial Storage Tanks are strong, sturdy and durable
- We use UV stabilised LLDPE and HDPE based on customer requirements
- Only virgin polymer material is used, which results in odour-free, hygienic and chemically stable tanks
- In addition to customised solid colours, we also offer a granite finish option
- We provide factory fitted nozzles for better durability and ease of installation
- We offer single and multi-layered tanks depending on the requirement

Dimensions

Sr. No.	Capacity (in ltr)	Diameter (in mm)	Height (in mm)	Manhole Diameter (in mm)
1	200	660	785	440
2	300	740	915	440
3	500	890	1,040	440
4	1,000	1,090	1,350	440
5	2,000	1,500	1,470	440
6	5,000	1,880	2,260	460
7	10,000	2,300	2,770	460
