

Festoon Cable

"Flexible cable for moving machinery and crane systems."

Commonly used in crane systems, hoists, conveyors, and other moving equipment. Their flexible and durable construction makes them ideal for festoon systems, where cables are suspended and guided along a track.

- The PVC flat cable 4 x 2.5 mm² is suitable for all electric hoists with a power consumption of up to 25 A.
- The line sag is 700 mm. The cable and towing trolleys are made from plastic and can carry loads of up to 10 daN.
- The rollers are fitted with bronze bushes resp. ball bearings.
- The C-rail, rail support brackets and rail connectors are zinc-plated for added protection against corrosion.
