SKYPIPE

Experience Brilliant Light

A versatile lighting solution designed for homes, resorts, offices and similar areas with false ceilings. Available in various sizes like **400 mm, 530 mm, 750 mm and 1000 mm (15.7, 20.9, 29.5 and 39.4 inches)**. This system is tailored to fit seamlessly into your false ceiling setup. It features a prismatic light collecting dome and offers a wide range of diffuser options to suit your preferences.

The unit is UV stabilised, ensuring durability and longevity. The reflective tubing used in SkyPipe boasts an impressive 95% to 99.9% reflectivity, allowing for excellent light and heat control. Compared to similar models in the market, our product offers higher light coverage, resulting in a brighter environment. The system is also customizable, allowing for easy installation on different types of roofs and false ceilings. With its highly uniform lighting spread and roof profile matching roof adaptor, this skylight tube provides a comprehensive lighting solution for any space with a false ceiling setup.

Advantages of using a Daylight Harvesting Skypipe:

Customized to fit on any types of roofs and suitable for only false ceiling areas.

Reflective tubing of 95% to 99.9%.

Higher light coverage against same competition models.

UV stabilized material used (blocks maximum part of UV rays).

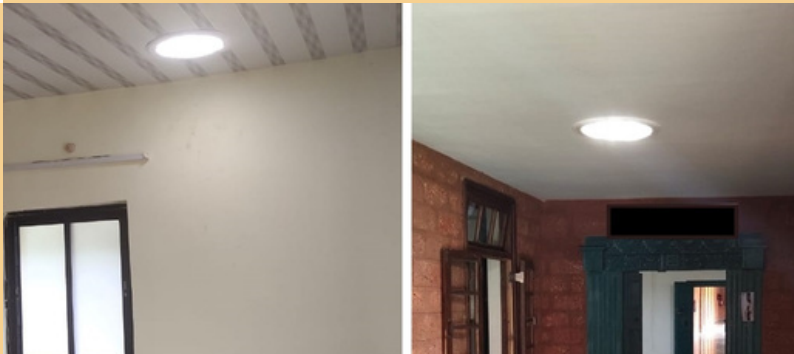

Reduces heat and save power cost during daytime.

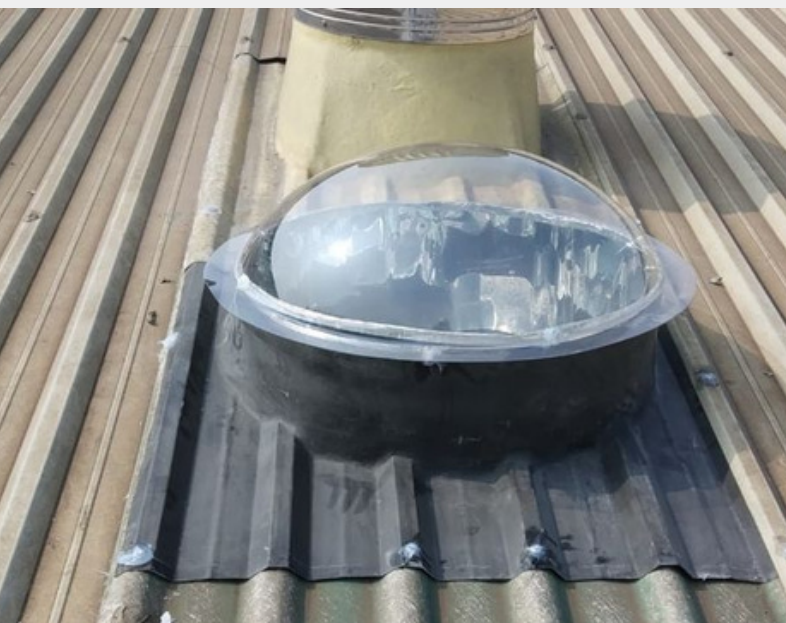

One time Investment with life span of 10 to 12 years.

Leakage proof due to heavy rain and other climate conditions.

Experience Brilliant Light: SkyPipe – Customizable, UV-Stabilized Skylight Tubes with Stunning Reflectivity, Perfectly Integrated for Your False Ceiling!
