vivid Hybrid OR Light

SIMPLE....COOL....CLEAR

BET MEDICAL (P) LTD

Making Technology Affordable...

Hybrid Technology Light with German Collaboration.

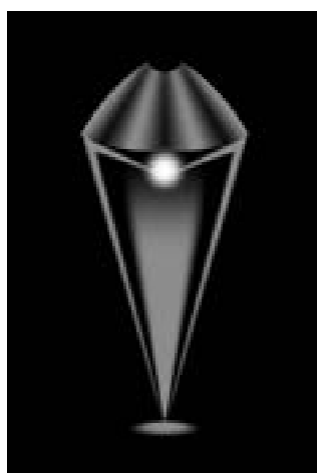

- **Unique hybrid technology** consisting of both direct lens and reflective mirrors

Benefits of Combined Technology

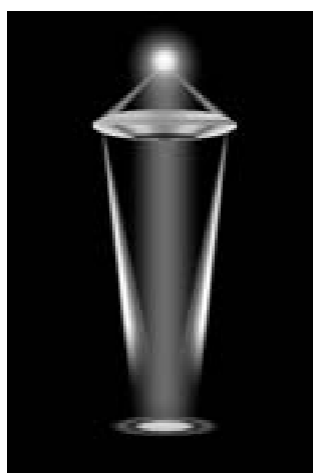

Reflection method

1. Increases the depth of Illumination.
2. Achieves minimum operating field as small as 18cm
3. Reduces the chromatic aberration.
4. Optimised shadow free view.

Lens method

1. Makes the operating field wider up to 35cm.
2. Makes an homogenous operating field.

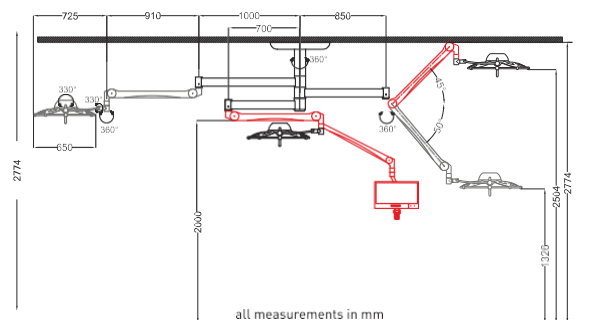

- Large Variable operating field diameter of 18mm to 35mm
- Perfect laminar flow capability and shadowlessness

Growing Together... Reliable Whenever...
