

Aluminium Alloy Mast Lift Platform

Compliant with EU CE standard

Product configuration

Standard configuration

- Lifting guardrail
- Quick lock
- Remote controller
- Emergency drop valve
- Polyurethane tires
- Spirit level
- Safety legs

Optional

- Battery lift
- AC and DC lift
- Hand pump
- Assisted walking
- Explosion-proof electrical appliances

Features

- High-strength high-quality aluminum alloy material
- Beautiful appearance, small size and light weight, one person can drag and walk
- The platform itself wears insurance steel ropes and safety protection devices
- The equipment is equipped with a remote control box, which can be controlled by the remote control
- The equipment adopts polyurethane tires, with low walking resistance, low noise and no damage to the ground
- According to the number of masts, the products are divided into single-column, double-column and three-column

Parameters

Sing mast	High	Load	Platform Size	Power	Weight	Overall size
GTWY4-1	4m	125-150kg	0.64*0.49m	0.75kw	200kg	1.18*0.80*1.65m
GTWY6-1	6m	125-150kg	0.65*0.65m	0.75kw	265kg	1.28*0.80*1.65m
GTWY8-1	8m	125-150kg	0.65*0.65m	0.75kw	290kg	1.28*0.80*1.98m
GTWY10-1	10m	125kg	0.65*0.65m	0.75kw	350kg	1.45*0.85*1.98m
