

MAXWARM ENGINEERING

AN ISO 9001:2015 CERTIFIED COMPANY

WELCOME TO **MAXWARM ENGINEERING**

ABOUT US

OUR COMPANY

- Maxwarm Engineering was established in 2007 and having Corporate Office at Chennai
- We design and supply high quality Furnaces and Ovens that meet the strict metallurgical properties and CQI9 requirements of industrial manufacturing companies all over India .
- We offer 24X7 support for breakdowns/ maintenance
- Our in house manufacturing facility is committed to exceeding Customer expectations in furnace reliability and performance.
- Maxwarm Engineering always maintaining its core values and quality standards.
- We have our own brand in the map of furnace and oven manufacturing for
 - ☒ Carburizing ☒ Hardening ☒ Tempering ☒ Annealing
 - ☒ Normalizing ☒ Solution Treatment ☒ Forging
 - ☒ Billet Heating ☒ Paint Drying ☒ Curing etc....

Values

- Quality
- Reliability
- Dependability

are deeply rooted in every aspect of our operation.

Our strength

Our multi skilled team of experienced engineers enables Maxwarm Engineering to meet most heat treaters needs from the design & supply of new equipment through responsive service under the guidance of our Managing Director Mr G.Sajikumar who made his own identity in his domain.

PRODUCTS

INDUSTRIAL FURNACES

DROP QUINCH FURNACES

Application:

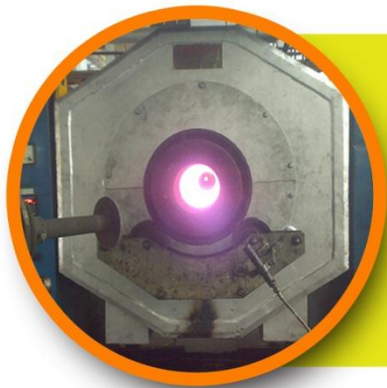

Solution Treatment of aluminium parts with high speed quenching and complete PLC / SCADA based Operation .

SEALED QUINCH FURNACES

Application:

For various Heat treatment Process with Protective atmosphere and PLC controlled operations.

ROTARY RETORT FURNACES

Application:

For Hardening, tempering, carburizing, carbonitrating, etc for small components.

PRODUCTS

INDUSTRIAL FURNACES

PIT TYPE FURNACES

Application:

Gas Carburizing, Hardening, Tempering, Annealing, Stress relieving, Carbo nitrating Etc.

BOGIE HEARTH FURNACES

Application:

Annealing, Stress relieving, Pre heating, Tempering, Etc

PUSHER TYPE FURNACES

PLC Controlled Operation with attached Quenching system.

Application:

Annealing, Tempering, Solution Treatment ,Hardening Etc

PRODUCTS

INDUSTRIAL FURNACES

CHAMBER TYPE FURNACES

Application:

Pre Heating Hardening, Tempering, Annealing, Etc.

MELTING / HOLDING FURNACES

Application:

Melting & Holding of Non Ferrous Materials

FORGING FURNACES

Application:

Pre Heating of Components before Forging.

PRODUCTS

INDUSTRIAL OVENS

DRYING OVENS

Application:
Paint drying
Moisture Removing
Tempering Etc.

QUERING OVENS

We manufacture Quering Ovens based on the requirement of clients with superior quality and affordable price.

CONVEYOR TYPE OVENS

we manufacture Conveyor Type Ovens based on the requirement of clients with superior quality and affordable price.
