The Smartest AI Powered Attendance Solution For The Modern Workforce

Manage attendance process, empower teams, and scale productivity with No Qu TAM.

noqu.in

Trusted by 1000+ Business Organizations

Smarter Attendance, Wherever You Work

No Qu TAM isn't just a tool, it is a comprehensive platform designed to simplify attendance management while scaling productivity. Whether your team is in-office, on-field, or hybrid, No Qu TAM brings clarity, control, and convenience to the way you manage time and resources.

Features

Attendance

Mark attendance that fits your workforce- face recognition, button tap, or QR scan using No Qu TAM. It also supports your existing attendance methods, be it RFID or biometric devices. One system, multiple methods.

Live Tracking

Track on-field and remote employees in real time with activity-based monitoring. Get live updates, activity logs, total distance traveled, and ideal time. Always stay updated on your team's movement.

Shifts

Support every operational rhythm, whether it's open, continuous, or split shifts. Configure overtime rules, permission timing and ensure every schedule runs like clockwork.

Workflow

Let attendance requests such as leave, permission, late check-ins, overtime, comp-offs, and week-offs, flow smoothly to HR and reporting officers. With alerts, approvals, and escalations, nothing gets stuck.

Leave Management

Managing leaves is simple now. Customize holidays and comp-offs, handle approvals effortlessly, and let employees track their own leave.

Regularization

Made an error? Missed a punch? With proper validations and audit trails, No Qu TAM allows regularization in 10 scenarios to correct and update logs.

Zero Capital Investment

No hardware. No big setup costs. Our SaaS attendance platform makes it easy to adopt and scale. Just plug into the platform and start using.

Reports and Schedulers

Get reports on your schedule. Set your reports once, receive them daily via WhatsApp/email. Attendance summaries, late marks, absenteeism are delivered on time.

User Rights and Controls

Ensure the right people always have the right control. Configure HR and user rights, create multiple HR roles (regional/head office) and assign specific permissions to manage tasks effectively.

Dashboard

View who's in, who's out, hours worked, late entries, and more on live. It's like having an attendance control room, right at your fingertips.

"With over 200 branches, managing attendance used to be a real struggle, biometric devices setups were expensive and employee safety during asset movement was a concern. No Qu TAM completely changed how we operate. Now, we've got decentralized control, live tracking, and a clear view of what's happening across every branch. It's the best software for our day-to-day operations. It goes beyond attendance and keep both our employees and their assets safe and secure."

Vetri Selvan

Biometric attendance in use? Meet its best partner.

Biometric Device Integration

Biometric devices are widely used for attendance but come with challenges. No Qu TAM enhances your existing setup with features like regularization and more, transforming it into a fully-fledged system that's accurate, flexible, and reliable.

Lead the Future with HR

Smart HR starts here. Simplify attendance, manage people better, and streamline workflows on one smart platform.
