

POWER TAPROOT

VAM Mycorrhiza Bio-Fertilizer (1200 IP)

Product Overview

Power Taproot is a high-efficiency Vesicular-Arbuscular Mycorrhiza (VAM) bio-fertilizer designed to enhance root growth and improve nutrient absorption. With a powerful **1200 IP spore count per gram**, it ensures rapid root colonization and long-lasting benefits throughout the crop cycle.

Key Benefits

- ✓ **Enhances root length, mass, and branching**
- ✓ **Improves phosphorus, zinc, micronutrient uptake**
- ✓ **Increases drought and moisture stress tolerance**
- ✓ **Boosts soil structure and beneficial microbial activity**
- ✓ **Improves flowering, fruiting, and overall yield**
- ✓ **Reduces dependency on chemical fertilizers**
- ✓ **Long-lasting effect with permanent root colonization.**

Technical Specification

- ✓ **Spore Count : 1200 IP per gram**
- ✓ **Formulation : Vam (Vesicular-Arbuscular Mycorrhiza)**

Dosage & Application

Field Crops : 100g per acre, Mixed with 25-50kg FYM/compost and applied near root zone.

Drip Irrigation : 100g per acre.

Vegetables & Flower : 100-150g per acre during growth and flowering stages.

Recommended Crops

Fruits

Banana
Tomato
Chilli
Brinjal
Onion
Spices
Other

Plantation

Coconut, Arecanut, Coffee, Tea
Vegetables & Flowers
Tomato, Chilli, Brin jal, Onion,
Cabbage, Cauliflower,
Paddy, Maize, Cotton, Sugarcane
Turmeric, Ginger, Pepper, Cardamom
Nursery, Tissue Culture,
Transplanted Crops

Available Packs

100g | 250g | 500g | 1kg
