**VAPT-certified  
to ensure secure  
access, data  
integrity, and  
platform reliability.**

# Are These Challenges preventing progress and hindering your growth?

## **Still stuck with manual audits and scattered checklists?**

Paper-based/Excel audits, inconsistent checklists, and disconnected systems make audits slow, error-prone, and hard to scale across plants and suppliers

## **Missing real-time visibility into CAPA and follow-ups?**

Poor access to real-time performance data, scattered non-compliances, and delayed follow-ups prevent proactive quality management and impact compliance scores.

## **Finding it hard to align QA, production, and supply chain teams?**

Inefficient collaboration across engineering, operations, QA, and supply chain slows information flow and decision-making.

## **Spending too much time consolidating reports across sites?**

Variations in audit execution, recurring non-conformities, and difficulty generating consolidated management reports hinder standardization and readiness for customer audits.

# Introducing AuditVista – Your Intelligent Path to Operational Excellence.

AuditVista is a comprehensive, cloud-based platform designed to revolutionize how manufacturers conduct inspections, manage maintenance, and perform quality audits. We empower your teams with the digital tools and real-time insights they need to:

## **Standardised & Controlled Audit Execution:**

Digital checklists, guided workflows, and consistent governance ensure uniform audits across teams and locations.

## **Seamless Non-Compliance Tracking & Closure:**

Instant NC capture, auto-notifications, structured CAPA, and complete evidence trails accelerate issue closure.

## **Clear Accountability & Ownership:**

Actions, delays, and responsibilities are transparent, driving faster resolution and consistent follow-through.

## **Enhanced Collaboration Across Teams:**

A single communication space connects quality, maintenance, and operations for faster alignment and problem-solving.

## **One Source of Truth for Performance & Risk:**

Unified visibility across sites with real-time insights, trend dashboards, and digital trails for stronger audit readiness.

## **Site-Level Performance Intelligence:**

Benchmarking dashboards and technician/site visibility enable better monitoring, comparison, and execution discipline.

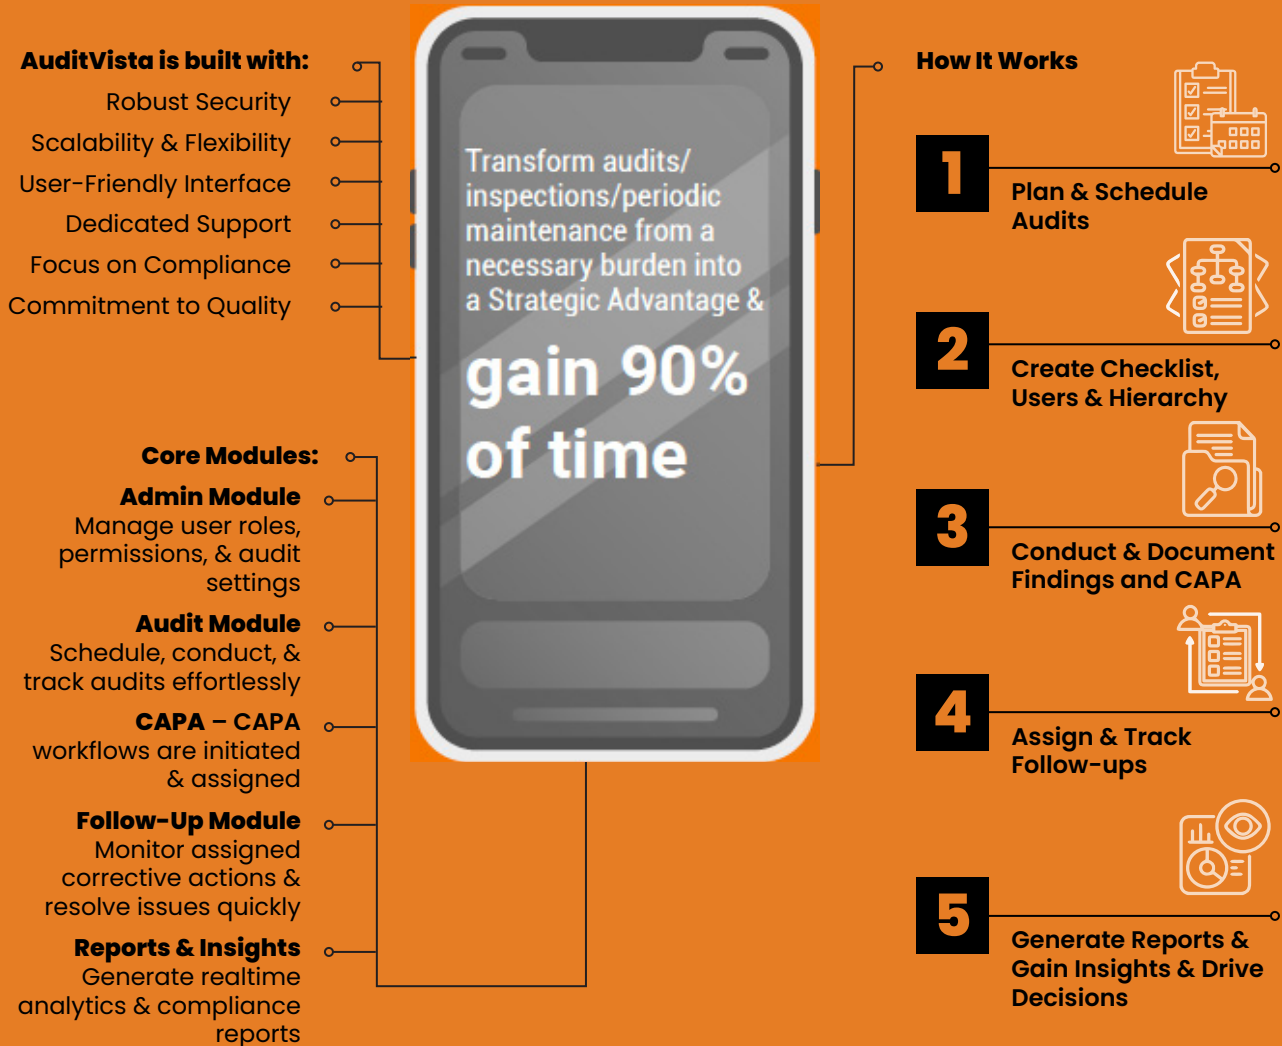

## **Faster, Data-Driven Decision-Making:**

Instant access to live performance metrics helps leaders quickly identify systemic issues and prioritise improvements.

# Built to Work Together, Built to Work for You...

We understand the concerns you have about adopting new technologies and ensuring the safety and quality of your operations. At its core, AuditVista operates through a suite of integrated modules that work together to provide a seamless and reliable platform.

# Purpose-Built Features for Organisational Brilliance

- **Digital Checklists & Forms:**

Customizable, mobile-friendly checklists with rich media support.

**Benefit:**

Streamlined data collection, improved accuracy, reduced paper waste.

- **Geo-Tagged Media Evidence:**

Capture GPS coordinates with photos and videos during inspections, providing irrefutable location and time verification for collected evidence.

**Benefit:**

Enhanced evidence reliability, improved accountability, streamlined audit trails.

- **CAPA (Corrective and Preventive Actions):**

Streamline the process of identifying, documenting, assigning, tracking, and verifying corrective and preventive actions.

**Benefit:**

Improved problem resolution, prevention of recurrence, enhanced quality management.

- **Follow-up for Continuous Improvement:**

Assign responsibility for followup actions and track their completion with clear timelines and notifications, ensuring accountability for verifying CAPA effectiveness.

**Benefit:**

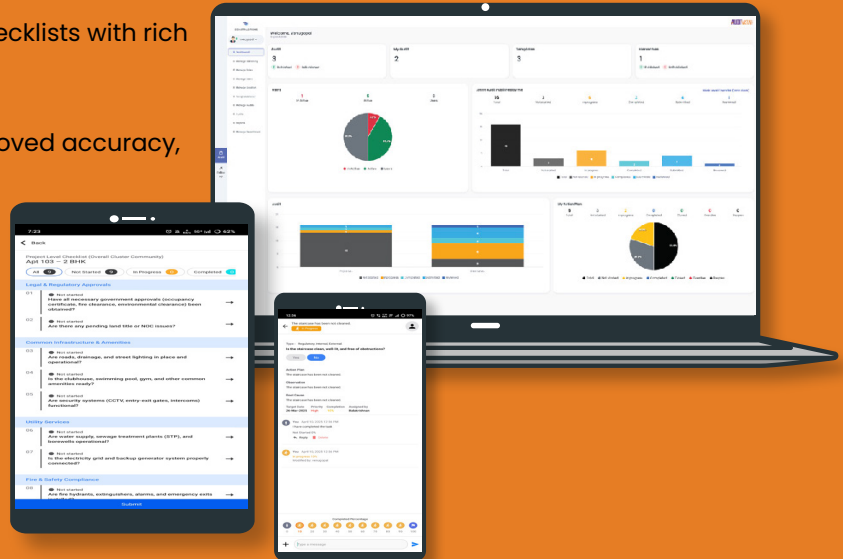

Ensured closure of corrective actions and validated effectiveness of preventive measures.

- **Real-time Dashboards & Analytics:**

Visual insights into key performance indicators (KPIs).

**Benefit:**

Proactive decision-making, early issue detection, performance tracking.

# Unlock Tangible Benefits for Your Bottom Line.

Turn audits, inspections, and checklists into measurable business results. AuditVista delivers cost savings, productivity gains, and decision clarity across industries.

**Over 40% increase in Audit Productivity through reduced audit cycle time**

**Over 50% reduction in audit closure & CAPA turnaround time**

**Clear decisions from execution to leadership**

**Built to Scale as Your Business Grows**

AuditVista supports a wide range of audits across manufacturing and asset-intensive industries, enabling organizations to standardize execution, capture evidence, and gain real-time visibility, regardless of audit type or complexity.

## **Automotive & Auto Ancillaries**

---

- Supplier/Dealer Quality Audits
- Process & Line Audits
- Internal Quality & Compliance Audits
- Safety, Maintenance & 5S Audits
- Customer-Specific Audits

## **Heavy Industry & Machinery**

---

- Assembly & Line Process Audits
- Welding & Fabrication Checks
- Quality & Final Inspection Audits
- Equipment Maintenance
- Vendor/Supplier Quality
- Safety & Risk Assessments
- Pre-Dispatch Inspection (PDI)

## **Industrial Manufacturing**

---

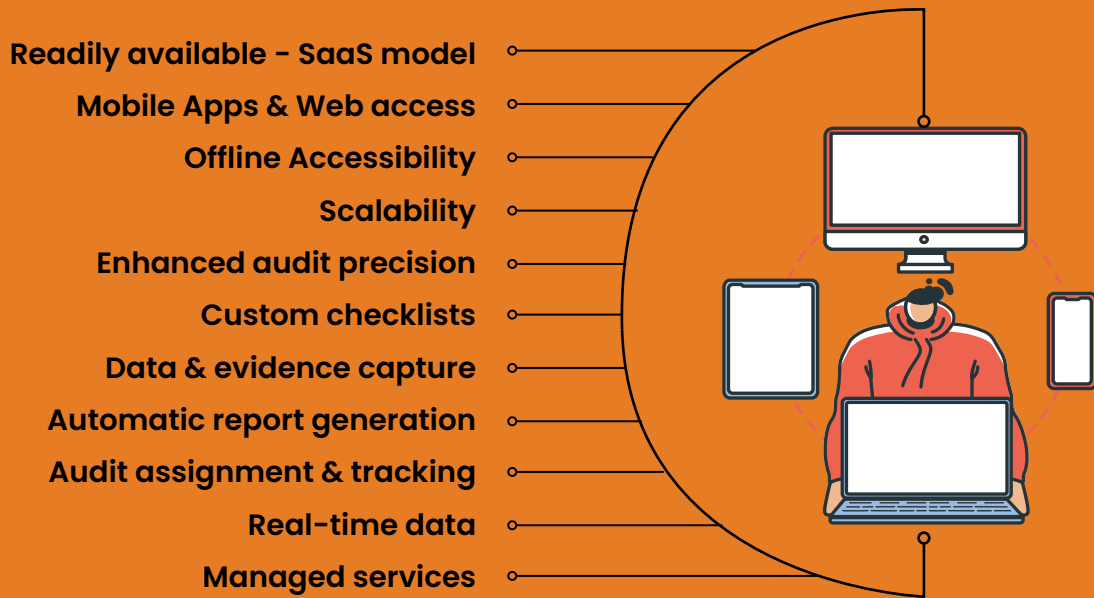

- Process & Workstation Audits
- Quality & Compliance Audits
- Maintenance & Equipment Readiness
- Health, Safety & Environment
- 5S and TPM audits

## **Energy & Utilities**

---

- Safety Audits (HSE)
- Maintenance & Reliability Checks
- Substation & Field Inspections
- Quality & Process Compliance
- Environmental Audits
- Contractor & Vendor Assessments

**AuditVista is a fully digital platform that works seamlessly across desktop, tablet, and mobile devices.**

**As a SaaS-based solution, it requires no installation—just log in and start auditing!**
