

# Tapes

## Tapes BOPP & Specialty

### High Strength

Rugged structure and high tensile strength makes it ideal for automatic machine applications

### Product Consistency

Assured length and thickness with flawless dimensional stability and flatness

### High Adhesion

High quality adhesive quickly bonds to the surface and is the best choice for securing shipments

### Application Versatility

Wide variety of widths, colours and printing options makes it suitable for various applications

# Tapes

## BOPP & Specialty tapes

### BOPP Tapes

Signode's BOPP Tape works in extreme temperatures, provides exceptional bonds between the surfaces and superior properties of UV, moisture and heat resistance.

Also, it is the essential part of Signode's Carton Sealing Systems.

- Provides high tack and shear resistance between the two applied surfaces / substrate which results in making the pack tamper evident.
- Good impact strength makes it suitable to use with manual dispensers and automatic sealing equipment.
- High shear strength and less elongation along with the resistance to abrasion, moisture, temperature and various chemicals makes it suitable for customization with color options, printing and lamination.

### Filament Tapes

These are high performance single sided packaging tapes made by reinforcing film with glass mesh to provide high grab adhesion.

- Higher strength makes it an ideal choice for heavy duty packing.
- Non-tearing in both directions.
- Used in packing of metal coils, sealing courier bags and to reinforce fabric / leather before stitching.

### HDPE Tapes

These tapes are manufactured from woven HDPE fabric and have high tear and water resistance.

- Available in self-wound and with release liner.
- High shear strength and high elongation.
- Used for various applications like VCI fabric, HDPE bags and Flexible Intermediate Bulk Containers.

### Specialty Tapes Technical Specifications

Product	Thickness (Micron)	Break Strength (Min) (Kg / Inch)	Elongation (Max) %	Adhesion (Min) (Kg / Inch)	Colour (Appearance)	Length (Meter)
Filament Tape	150	56	8	2.12	Translucent	50
HDPE Fabric Tape	180	25	20	1.5	Grey/Blue/White	50

### BOPP Tapes Technical Specifications

Product	Total Thickness (Micron)	Film Thickness (Micron)	Adhesive Thickness (Micron)	Tape GSM	Core ID (mm)	Holding Power (Hrs)
A Grade	48	29	25	53	101.6	10
B Grade	49	23	25	48	101.6	8
C Grade	44	23	21	44	101.6	8
CC Grade	40	23	17	40	101.6	7

#### Specialty Tapes:

1. Tolerances: Thickness +/- 5 micron for Filament Tape, +/- 3 micron for HDPE Fabric Tape, Roll Length +/- 2%, Break Strength, Elongation, Adhesion +/- 5% for HDPE Fabric Tape

#### BOPP Tapes:

1. Tolerances: Thickness +/- 2 micron, Core ID +/- 2%, Holding Power +/- 2%

2. Roll Widths: 24mm, 48mm, 60mm, 72mm, 96mm, 120mm

3. Roll Lengths: 65 Mtr, 650 Mtr

The company reserves the right to make technical alterations without prior notification.
