## 01. THE PROBLEM

### Important Things Get Forgotten

Everyday, people lose money because they forget:

- Product warranty expiry dates
- Vehicle service schedules
- Insurance renewals
- AMC renewals
- Subscription renewals
- Important bills and invoices

Most of these records are scattered across emails, paper files, WhatsApp chats and folders.

When you need them, you can't find them.

When they expire, it's already too late.

**There Has To Be A Better Way.**
